### Description

The Titan 1,000 lb motorcycle mini jack is perfect for lifting either end of your motorcycle or ATV for wheel service. Comes standard equipped with a removable steel crank handle, two adjustable saddle adapters, two height-adjustable rubber coated frame pads and a steel safety bar with six locking positions. Use the jack without the saddle adapters to get the lowest clearance possible at 3.5" fully collapsed. With a maximum raised height of 19" and a weight capacity of 1,000 lb, the Titan MLJ-1000B will be useful in more ways than you ever thought possible. Backed by a 90 day parts warranty through Titan Lifts based in Greenwood, Indiana.
